13 July 1966

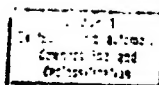

MEMORANDUM FOR: Chief, Psychiatric Staff, OMS
ATTENTION : Dr. ⁰³ Herman
SUBJECT : Psychiatric Examination of Vladimir
RODRIGUEZ Lahera

1. This Agency is requesting permanent residence in the United States for Vladimir RODRIGUEZ Lahera under Public Law 110. A recent psychiatric examination is required in connection with this request.
2. Subject is a former member of the Cuban General Directorate of Intelligence who defected in April 1964. Since that time he has been used operationally by WH/C and is presently stationed at JMWAVE. Due to security considerations, it is not deemed advisable that this examination be conducted by a local cleared consultant.
3. It is therefore requested that arrangements be made by your office to send a psychiatrist to JMWAVE during the week of 18 July in order to conduct the examination. If it is possible to comply with this request, please notify WH/C/CICS of the name of the doctor who will make the examination and the date he will arrive at JMWAVE Station.
4. WH/C/CICS will make available any background material on Subject that would aid the psychiatrist who will make the examination. This office is also available to discuss any aspect relating to Subject that you consider advisable.
